A FATAL "INFLUENCE."

The local Southant paper explains that the Opposition have decided to not contest the election of Hon, C. R. Mitchell in Bow Valley because of the "influences which would be against them."

The only "influence" that could tell effectively against the could tell effectively against the Opposition candidate in that con-stituency, and the only one need-ed, would be the force of public opinion which expressed itself in the late election by giving the Liberal enaldidate a majority in every polling division.

"GLEN LYON" LOTS FOR AUCTION HERE

Valuable Vancouver Property in Heart of New C.N.R. Development will be auctioned by Reed & Robins Edmonton.

'Arrangements have been made by the firm in charge of the sale of ''Glen Lyon,'' the property lying close to the suburban end of the great tunnel which will carry the Canadian Northern into the heart of Vancouver, to to the heart of Vancouver, to have a portion of the lots of-fered at guetion in this place. This comes in re-sponse to the demand on the part of a number of intending investors in Edmonton and is in line with the sales policy of the firm in charge.

of the firm in charge.

At is not yet known just what section of "Glen Lyon" will be put on here, but it is stated by the firm's representatives that some of the best lots in the property will be knocked down to the highest bidders locally. The auction method of selling reliable properties is one that auction method of selling re-liable properties is one that is gaining in favor in West-ern Cameda, and it is one that has many good points both for the purchaser and for the vendor, although, of course, it would hardly be a paying proposition to offer anything but first class property in such manner.

but first class property in such manner. 'Iying on the North Arm of the Fraser, which Sir Donald Mann has the Arm of the Greater Vanesuver, is one of these clustrial district of Greater Vanesuver, is one of these fortunate properties that happen to be on the very spot where some great trans-formation take place. It is property that cannot help but mercase rapidly in value work of the C.N.R. and the pressing demand for great-er industrial space to serve the expansion of the Coast Metropolis.
